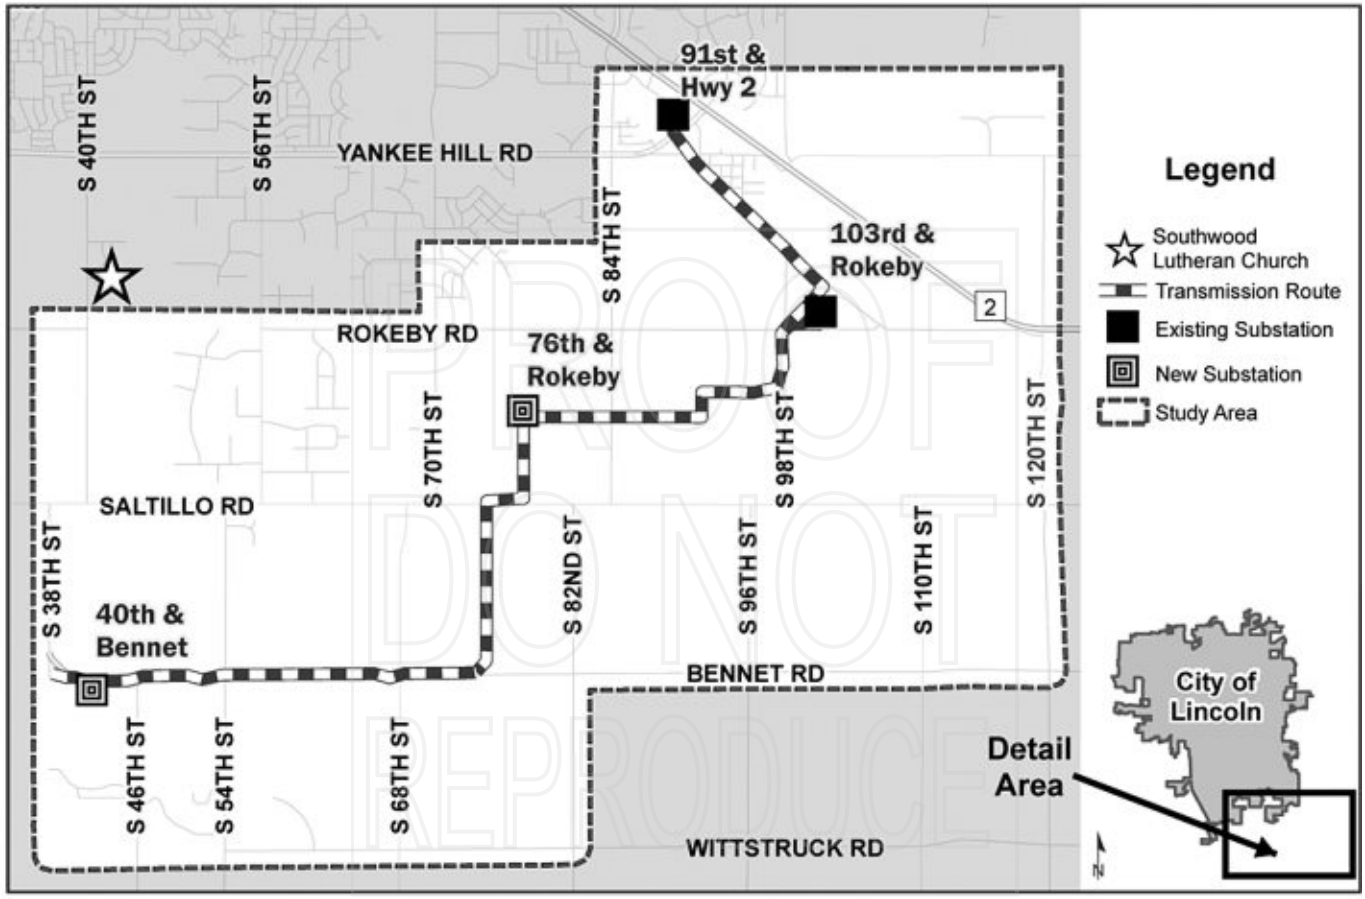
Notice of Public Hearing



Pursuant to Neb. Rev. Stat. §§ 25-2504 (Reissue 2008) & 70-301 (Reissue 2009), Lincoln Electric System will hold a public hearing for the Southeast Reliability Project on Tuesday, Jan. 24, 2017, 7-8 p.m. at Southwood Lutheran Church, 9300 S. 40th Street. The project addresses the growing demand for electrical service in Southeast Lincoln by rerouting an existing 345-kilovolt transmission line and constructing a new 115-kilovolt transmission line to connect new substations to the existing power grid.

At the hearing, LES will explain the nature of and necessity for the project, the acquisition process, and the legal rights of land owners.

For further information, contact Nick Vanous, Supervisor, Transmission & Civil Design at 402-467-7656.
