

# Property Manager

Access information about the electrical service of your rental properties — 24 hours a day, 7 days a week.

*Unsure as to whether the electrical service to commercial properties, such as apartments or retail business units you own or manage, is on or off or if your tenants put the service in their name?*

Now you can be sure — 24 hours a day, 7 days a week. If you have a computer and Internet service, LES' free, Internet-based Property Manager can provide you password-protected access to information you need to conveniently monitor your rental properties.

## Property Manager shows you:

- Electrical service address
- Party responsible for service address account
- Power on/off status
- Whether there are name changes pending for the service address
- Start date of electrical service
- Meter number
- 14-month electricity use and bill amount history
- Budget Billing amount
- Email communication with LES service representatives, who can assist you with account information or problems

Property Manager information is updated after each business day to provide you the most recent status for each account in your property portfolio. As an LES customer, Property Manager is available to you for free to help you more effectively manage your business costs.

Call us at [402-475-4211](tel:402-475-4211) or email: [customerservice@les.com](mailto:customerservice@les.com) for more information or to set up an Property Manager service for your properties.
