

DON'T PUT FINGERS OR ITEMS INTO AN OUTLET

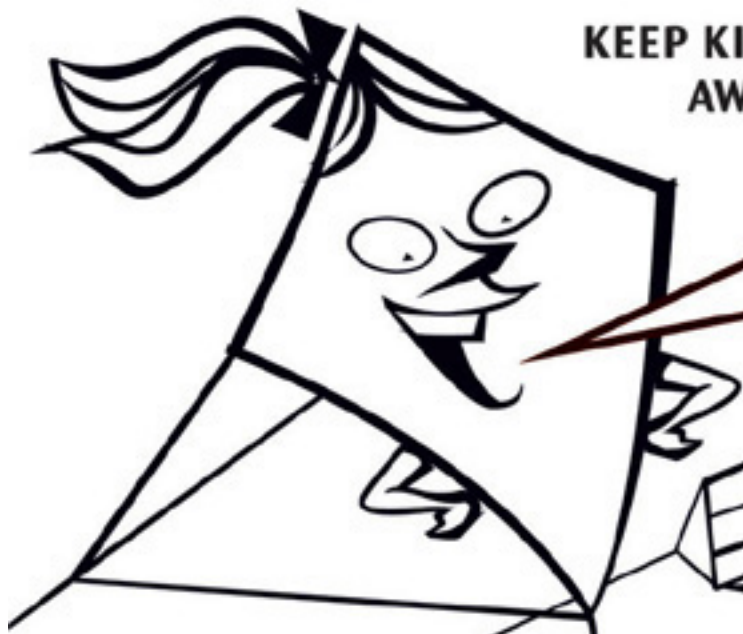

Outlets like me can cause bad ouchies, so keep things out.

Putting anything but a plug into an outlet is very dangerous.

KEEP KITES AND BALLOONS AWAY FROM POWER LINES

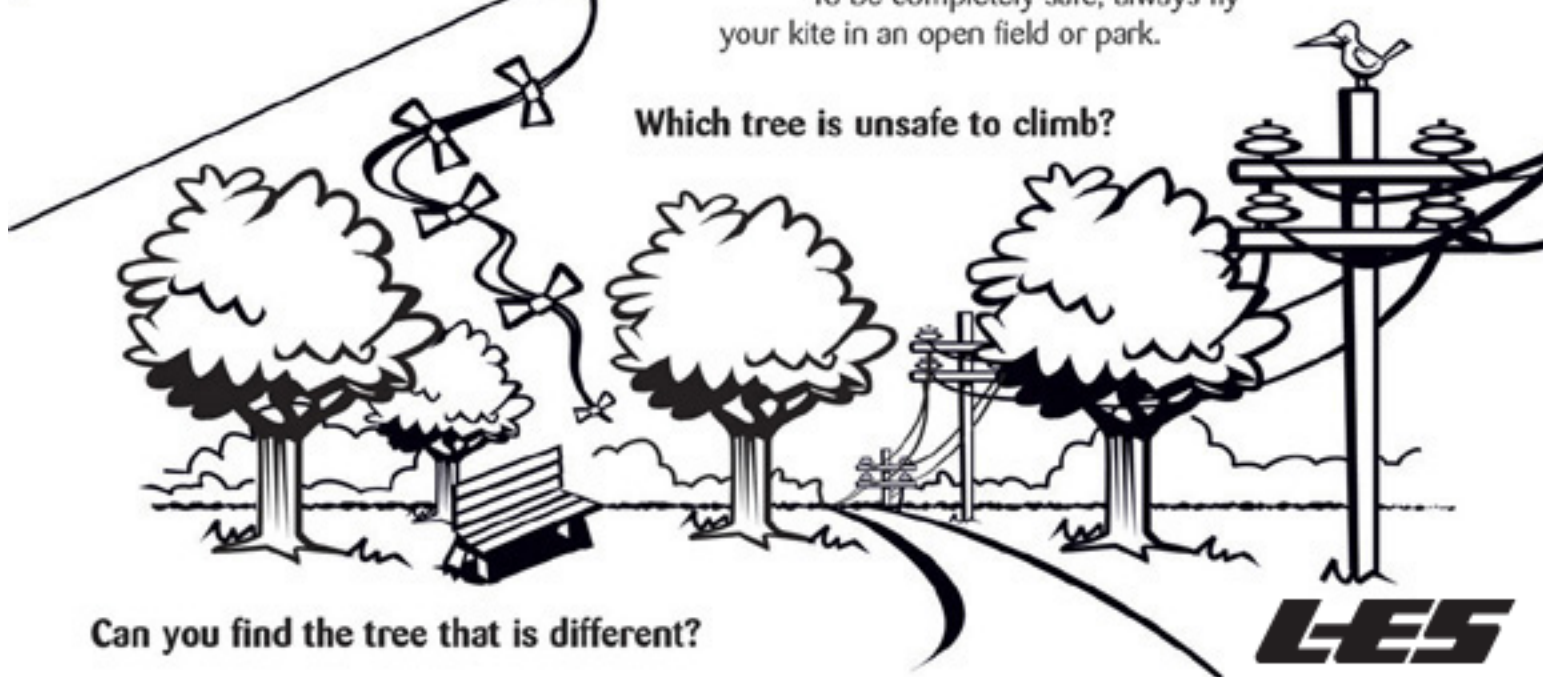

Trust me, flying is only fun when it's safe.

Don't fly your kite near power lines. If your kite gets caught in one, immediately let go of the string and tell an adult.

To be completely safe, always fly your kite in an open field or park.

Which tree is unsafe to climb?

Can you find the tree that is different?
