

# Ways to pay

Payment options that work for you

## Pay online / go paperless!

Now you can go to [LES.com](http://LES.com) and use our convenient online system or call **844.706.7689** to make your payment. Eliminate paper by opting to pay your bill online or over the phone.

Use EZPay for a one-time payment or enroll for AutoPay to schedule your bill to be automatically withdrawn from your account each month.

Our system accepts these payment types: Visa, MasterCard, Discover Card and your checking or savings account.

Disponemos con servicio de pago en español.

## Budget Billing

Household budgeting is easier when you know the amount due on your electric bill each month.

That's why we offer our residential customers Budget Billing, an equal monthly payment plan which allows you to pay estimated annual electric bills in equal payments.

Here's how Budget Billing works:

- *The electric usage at your current address is averaged for the previous 12 months.*
- *This average is slightly adjusted up or down depending on abnormally cold or hot weather during the previous year.*
- *The adjusted average is your "Budget Bill."*
- *Budget Billing doesn't save you money, but it does "levelize" your monthly payment.*
- *To participate in Budget Billing, you must have been at your residence for at least 12 months.*

We monitor your budget payments throughout the year and may adjust future payment amounts to reflect a significant change in your energy use.

To register for Budget Billing, just contact LES at **402.475.4211**.
