JULY 2022

LES remains competitive in cost and reliability

Lincoln Electric System recently released its Competitive Market Study. With some of the lowest cost and most reliable electric service in the nation, LES is a strong community partner.

Based on 2020 data, we ranked 15th best out of 87 cities for the lowest average all-in price and 8th best for residential all-in price. LES ranked 7th for the most stable rates over the past 10 years. Our reliability (without major event days) ranks 3rd best overall.

With an average residential bill of \$82.85 per month, just under \$3 per day, LES is ranked 12th lowest overall. Our affordability is further demonstrated by its 17th place ranking for the lowest residential bill as a percentage of household income. View the study at [LES.com](https://www.les.com).

Integrated Resource Plan Workshop 2

JULY 21 // 6-7:30 p.m.

LES Operations Center
9445 Rokeby Road

Join LES for an interactive workshop to learn more about the Southwest Power Pool's resource requirements and rating methodologies. Then, take the wheel of an LES model and build your own resource mix of the future.

Go to [LES.com/IRP](https://www.les.com/IRP) for more details.

Me time, illuminated by LES.

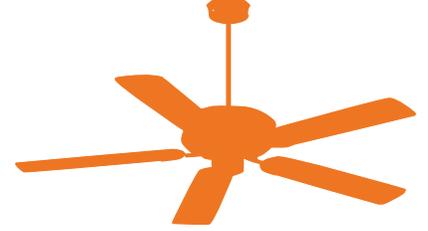

For only \$2.73 a day,
we power the moments
that get you going.

Visit [LES.com/Value](https://www.les.com/Value) to learn
more about the moments we power.

Keep lineworkers safe!

Did you know that signs or other items posted on utility poles can create serious safety hazards for lineworkers? The nails and staples used to attach the signs to poles can injure our line techs, damage their protective equipment and even cause them to fall. Please help keep our lineworkers safe and avoid unnecessary, costly accidents. Put the signs for your next garage sale or election on a stake in the ground (with landowner's permission) and not on a utility pole.

ENERGY-SAVING TIP

Turn off ceiling fans when you leave the room. Fans cool people, not spaces. During summer months, your ceiling fan blades should be set to spin counterclockwise to push air down and create a cool breeze.

Join us for the LES Sustainability Series!

Learn about our goal to achieve net-zero carbon dioxide production from LES' generation portfolio by 2040, and discover ways you can help with this effort.

View and add series events and activities to your calendar at [LES.com/Sustain](https://www.les.com/Sustain).

Cut costs, not comfort

Join LES' Peak Rewards program

Connected thermostats make it convenient to manage your home's energy use. You can adjust your thermostat on the go, or simply set an automatic schedule that optimizes your energy usage based on your routine. And by signing up with the LES Peak Rewards program, you'll receive additional rewards.

By enrolling your eligible thermostat in LES' Peak Rewards to earn a \$25 Amazon e-gift card, you agree to let LES make brief, limited adjustments to your thermostat during times of peak electric demand. Plus, for every year you participate, you will receive a \$25 bill credit after the close of each program year.*

You'll help your community manage energy more efficiently without sacrificing comfort — and help LES keep electric costs low.

Go to [LESPeakRewards.com](https://www.LESPeakRewards.com) to learn more and enroll today.

*You must apply by Aug. 1 of the current year to receive your \$25 bill credit at the end of the current Peak Rewards season.
