

# SUSTAINABLE ENERGY PROGRAM 2026

## Why should you invest in energy efficiency?

The Sustainable Energy Program (SEP) provides financial incentives to encourage residential and business customers to make energy-efficient improvements. By investing in energy efficiency, you help reduce peak demand, power costs, wasted energy and associated emissions.

## How does the program work?

Funds are available on a first-come, first-served basis until December 31, 2026.

Visit [LES.com/SEP](https://www.les.com/SEP) to see the available incentives, program terms and conditions, and the list of participating contractors.

### For residential projects:

1. Contact one or more of the SEP participating contractors for bids and available incentives.
2. Once you accept and sign a quote from one of the participating contractors, they will submit the project to LES on your behalf if it qualifies for an incentive.
3. You will receive an LES credit on your invoice from the contractor.

### For commercial projects:

Reach out to [SEP@LES.com](mailto:SEP@LES.com) for instructions on how to apply. Note: Pre-authorization is required prior to the purchase or installation of qualifying equipment.

## What projects are eligible for incentives?

Measure	LES Incentives
High-Efficiency Air Source Heat Pump, Mini-Split Heat Pump (< 5.4 tons)	\$1,000 *Low- and moderate-income residents may qualify for an additional City incentive of \$3,000. Visit <a href="https://www.les.com/SEP">LES.com/SEP</a> for more details.
Geothermal Heat Pump	\$1,000-1,800
High-Efficiency Air Conditioner, Mini-Split Air Conditioner (< 5.4 tons)	\$300
Heat Pump Water Heater	\$500
Attic Insulation	\$0.50 per square foot of qualifying attic space
Wall Insulation	\$0.80 per square foot of qualifying exterior frame wall space

Visit [LES.com/SEP](https://www.les.com/SEP) for the Sustainable Energy Program terms, conditions and energy requirements for each measure. Additional business incentives for energy-efficient measures like variable frequency drives or energy management systems are also listed on the website.
